📧 Gowdachiru552@gmail.com

Professional Summary

Passionate and self-driven Computer Science undergraduate with hands-on experience building dynamic full-stack web applications using the MERN stack. Proven ability to lead and deliver real-world projects, including a Spotify clone and a social impact platform built during a hackathon. Adept at solving complex problems, creating engaging UIs, and bringing ideas to life with consistency and creativity. Strong in React, JavaScript, Node.js, and Python - constantly learning, lifting (in and out of the gym), and leveling up.
